The Boy in the Striped Pyjamas

John Boyne

Information

I recommend this book to a person who likes information on what has happened in the past about hitler and the jews but it also tells about how the characters live in this life.

Found in the library.

In this book the main character Bruno moves to Out-With because his father gets a job and it's too far away for him to drive. Bruno doesn't really like it in Out-With but, he is fine with it once he meets a new friend. This friend that he meets needs his help with something that he can't do alone. Read the book *The Boy in the Striped Pyjamas* to find out in whether Bruno says yes or no and what he might have to face to help his new friend.
