Escape From the Overworld

Author: Danica Davidson

Genre: Fantasy

I recommend this book to a person who likes a bunch of fantasy, and a little bit of action. This book is about a kid named Stevie. He comes from a long line of Steves. He comes through a portal from the computer screen into Maison's room. Maison takes Stevie to his first day of school. They're sitting in a assembly, and they see zombies sitting there. Stevie has to get back to Maison's room, and shut the portal down. Does Stevie get their in time, or will he not get home. Read the book to find out.
