## Night school

I recommend this book Night School to people that love Graphic novels, Mystery, witches, hunters, werewolves, and more this book is a dramatic mystery. this book can be found in the DLS library .

This book is about a weirn named Alex (weirn is a special type of witch that is very very rare). She has been homeschooled on wizardly powers by her sister a super powerful corky witch. She lives with her sister until she goes missing with no memory left, no records, not even a pictures left. Alex becomes a night school students to find her sister. with friends along the way like a mermaid, werewolves, more weirns, and hunters I don't think she will find her sister without sacrifices do you? Will Alex manage to weather the dark forces gathering?
