Science Fiction

I recommend this book to a person who likes romance but also a little twist of adventure and somethings fake or real about the future that can also be a mystery.

In this book Cassia is a girl who is a great sorter in the society and went to the “war” and is in a canyon full of fascinating things while she is looking for her love and is longing to go home. For example, When Cassia was looking for her love with her new friend she climbs her way up canyon walls and finds secrets about the society she never knew before. Will Cassia find her love and will she ever be able to go home ? Read the book *Crossed and you will find out.*
