The Hunger Games

Suzanne Collins

Science Fiction

I recommend this book to a person who likes a kind of book with a couple of good genres mixed together! This book I feel features a slight adventure with some romance, and definitely science fiction because this is placed in a dystopian universe.

This book is about 16 year old Katniss Everdeen, who is a volunteer tribute for the 74th annual Hunger Games. She enters this dreaded competition to help feed and protect her family. Her district partner is Peeta Mellark. Together, they are entered in the Hunger Games from District 12. They must win a kill everybody in order to get food. Who will win? Check this book out of the school library to find out!
