

Ashley Gilbert Recommends...

Divergent

By: Veronica Roth

Genre: Science Fiction

I recommend this book to anyone who likes Science Fiction, and as well as action books.

In this book, Sixteen-year-old Beatrice Prior is born in an Abnegation family. She doesn't feel like she actually belongs in Abnegation, because she doesn't see herself as a selfless person, When she takes a test (The Aptitude test) it tells her what faction she belongs in. Her aptitude test also supports that she doesn't belong in Abnegation, Choosing aptitude for three factions: Abnegation, Erudite, and Dauntless.
