

Kamden M Recommends:

Harry Potter and the Order of the Phoenix

J.K Rowling

Fantasy

This thrilling book is great for fantasy lovers, suspense, and twists and turns. If you love foreshadowing and “a-ha” moments then this is a great series for you.

I liked this book because it's filled with action, fantasy, and friendship. Also, J.K Rowling creates amazing suspense that keeps you on the edge of your seat. In this thrilling story Harry, Ron, and Hermione enter their fifth year in Hogwarts. But, this year isn't any normal year. With it being their fifth year the three friends are required to take their stress filled O.W.L.s test and not to mention Lord Voldemort is back and ready for revenge. It doesn't help that the Ministry has sent in a new teacher, Professor Umbridge a toad, stout lady ready for “blood”. Will Harry, Ron, and Hermione pass their O.W.L.s with Umbridge teaching, and will Voldemort take control again? Find out in this nail biting, thrilling, suspenseful story. P.S. Don't buy anything from Fred and George.
