If I Stay

Gayle Forman

Fiction

Mia is a seventeen year old cellist who has so much ahead of her. She loves her family, boyfriend, best friend, and they all love her back. She is a quiet individual who prefers to keep to herself.

I recommend the book *If I Stay* to anyone who likes fiction, romance, and drama. This book is about 17-year old Mia Hall who deals with the aftermath of a severe car accident with her family. In a coma, Mia had a out-of-body experience in the hospital seeing friends and family when they can't see her. Her boyfriend Adam visits her every day to check on her. Will Mia come back and keep her dream with the cello and audition for Juilliard Fine Arts College or see her boyfriend ever again? Read *If I Stay* to find out. It is also in the Library.
