Book- Keep Me in Your Heart

Author- Lurlene McDaniel

Genre- Realistic Fiction

Keep Me in Your Heart is three books combined, so it makes one big book. The names of each book in the novel is *Saving Jessica*, *Telling Christina Goodbye*, and *Letting Go of Lisa*.

The main topic that these three books cover is how hard it is to lose someone special to you. In each book (since in all three books it's mainly girls) it tells you how rough it can be on other people such as their

boyfriend. In all three books something happens to one girl... Does she die? Does she have cancer? Read this book to find out what happens in each of the three books!! Not found in the DLMS Library, but possibly found at a local bookstore.
