

Luke Heyboer Recommends...

Title: Star Wars Target

Author: Alex Wheeler

Genre: Science Fiction

I recommend this book to someone who likes a little bit of fantasy and a lot of adventure. But there is still a little bit of Sci-Fi. Found in the library.

Star Wars Target is about a robot/human that just got brainwashed and is getting orders to kill Princess Leia. Well Leia is not exactly princess anymore because the empire (bad guys) blew up her home planet but she escaped with the help of some friends. The robot/human X-7 changes his appearance to fit in so he does not get arrested. So X-7 risked his life to save Leia but he was really faking it. The empire will kill X-7 if he can not find and kill Leia. But Leia is protected By the best pilot ever he blew up the Death Star. His name is Luke Skywalker. Leia is also protected by Han Solo and a Wookiee named Chewbacca. Will X-7 kill Leia or will he fail his mission and get killed himself. Read Star Wars Target to find out.
