Fantasy

I recommend this book to any fan of fantasy books, fans of Middle-Earth, and people who liked *The Hobbit* movie trilogy.

Found in my house (I own the book).

In this book, Bilbo Baggins, a hobbit who lives in the Shire, is invited by Gandalf, a wizard, to help Thorin, a dwarf, (grandson of Thrór, the king of Erebor until he died) and his company of dwarves to reclaim their homeland, Erebor, from the dragon Smaug. After the dwarves and Gandalf have a party at Bilbo's house, Bilbo agrees to sign a contract and become the company's "burglar". Along the way, Bilbo falls into Gollum's cave, the dwarves get captured by spiders, and the dwarves also get imprisoned by elves. Will the dwarves be able to reclaim their homeland from the dragon Smaug, or will they fail? Read *The Hobbit* to find out!
