Title: Unbroken
Author: Laura Hillenbrand
Genre: Historical Fiction

I recommend this book to someone who likes learning about the war. I also think people who like books that are very descriptive that make you feel or see what the author is describing. This book is about a boy who was a trouble maker which he eventually grew out of and became an olympic runner. He stopped his bad habits because if he kept it up, he would be locked up, and have to leave his family and home. After Louie's years as a runner he joined the war where he became a bomber. Phil, the pilot of Louie's plane, the *Superman*, became best friends and went through a lot together. One day Louie and Phil had to use another plane called the *Green Hornet*. They were having problems with the *Green Hornet* and thought they were going to crash. Will they crash and be taken by the Japanese? If they do will they survive? Read Unbroken to find out.
