Fantasy

I recommend this book to a person who likes a funny story, mystery, and on going secrets.

In the book, *Wayside School Gets a Little Stranger*, Mrs. Jewels is having a baby, so so their is going to be a substitute. Everybody does not want to go to school, but their parents told them to. The substitute was really weird so they had a different substitute, but the something was weird about her. This girl thought that she saw a crime. Is it true or false? Found in Mrs. Belote's room.
